### **Overview:**

Although the Futaleufu is world famous for its technical big water, there are many tributaries, sections and features in the Futaleufu river valley which are ideal for paddling school classes and beginner kayak lessons. There also several other rivers with-in two hours. There is an indoor pool one hour away just across the border in Argentina and hot springs 3 hours away near the volcano Chaiten. For beginning whitewater kayakers and sea kayakers, our kayak school offers three types of paddling courses that vary in intensity. Our New Kayaker Week focuses exclusively on kayaking, with a single day off for a multisport activity of your choice. Our Learn to Kayak Multisport Week combines kayak lessons with a greater emphasis on multisport activities. Lastly, for those who want to intensify their time on learning how to roll a kayak, or improve their kayak roll, we offer kayak rolling clinics from our paddling school.

This kayak school class is designed for the first time paddler. Our kayak instruction program will introduce to you the basic kayaking strokes, boat control, wet exits, and the Eskimo roll, before we take you on moving water. The kayak lessons presented in this course will give you a solid foundation that will allow you to rapidly make progress in the sport of whitewater kayaking. Over the course of a week you will learn the basics of kayak eddy turns, peel-outs, ferries, and the fundamentals of edge control. During the middle of the week we usually take a rest day from kayak lessons that will allow you the opportunity to take advantage of the numerous other optional multisport activities in this spectacular Patagonia wilderness. The last two days of our kayak school are devoted to day-long kayak river trips, where we will put all of the paddling instruction fundamentals together...

This itinerary is for beginner kayakers who want to add a multisport component to their kayak school vacation.
